STRAIGHT SAVAGE

INTRODUCING

IMPULSE™

1. **HEXLOCK**
a robust bolt design with bearings that expand to allow for superior safety. As gas pressure from a fired round builds, HEXLOCK remains engaged.

3. **MULTI-POSITION, AMBIDEXTROUS BOLT HANDLE**
allows for multiple positions for the bolt angle, in addition to right or left hand position, and also serves as a security key to the gun.

2. **ROBUST LOCK UP**
design with free floating, interchangeable bolt head.

4. **INTEGRAL MIL-SPEC PICATINNY RAIL** enables reliable and sturdy mounting with multiple optic mount options.

- PROVEN FOUR-BOLT BARREL CLAMP** with integral lock provides easy disassembly and repeatable zero.

- SELF-CONTAINED MODULAR SUBASSEMBLIES** enable simple toolless disassembly and assembly.

IMPULSE

STRAIGHT PULL BOLT ACTION DESIGN | INNOVATIVE TECHNOLOGIES | SAFETY FOCUSED

5. AMBIDEXTROUS TANG SAFETY
magazine release, and bolt release allow for intuitive operation.

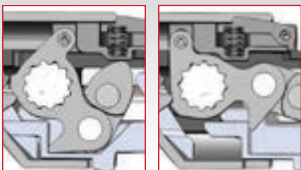

7. SINGLE STEP SIDE BOLT
release with no manipulation required on bolt insertion.

6. SINGLE STEP QUICK RELEASE
button unlocks the bolt and automatically resets, eliminating cycling failures.

8. CYLINDRICAL BOLT
design allows for smooth handling and prevents bolt bind.

ROTARY BOLT HANDLE
allows for controlled loading, leveraged bolt close, and pre-extraction.

BARREL EXTENSION
with barrel locknut that allows for accurate headspace control.

IMPULSE SERIES

Whether you're tracking fast-moving targets or you're ready to pull the trigger on the trophy you've been stalking, speed is the name of the game. The new Savage straight-pull rifle is instinctive and lightning-fast—and every inch of the rifle encompasses breakthrough technology for speed and precision. It's unlike anything on the market, and only Savage is bold enough to deliver it to the world in a high-octane, American-made way.

A SEMI-AUTO

FOR

 **SAVAGE**

RENEGAUGE™

THE AMERICAN-MADE SEMI-AUTO SHOTGUN FROM SAVAGE

ADJUSTABLE LENGTH OF PULL AND COMB HEIGHT

Allow for a customized fit that enhances accuracy and comfort for each shooter. Included with each package are three recoil pads and three comb heights.

A shim kit is included to further adjust drop and cast for minute adjustments for each shooter.

OVERSIZED CONTROLS

The charging handle and bolt release are larger than many factory shotguns for increased ease of use, particularly with gloves.

COMPETITION-READY, EASY LOADING MAGAZINE PORT

The beveled loading port, angled trigger housing, receiver, and elevator are designed for easy and rapid loading of cartridges.

STOCK ROD BUFFER

The stock rod buffer is designed to reduce felt recoil and extend the life of the action bar assembly.
(Patent pending)

RENEGADES

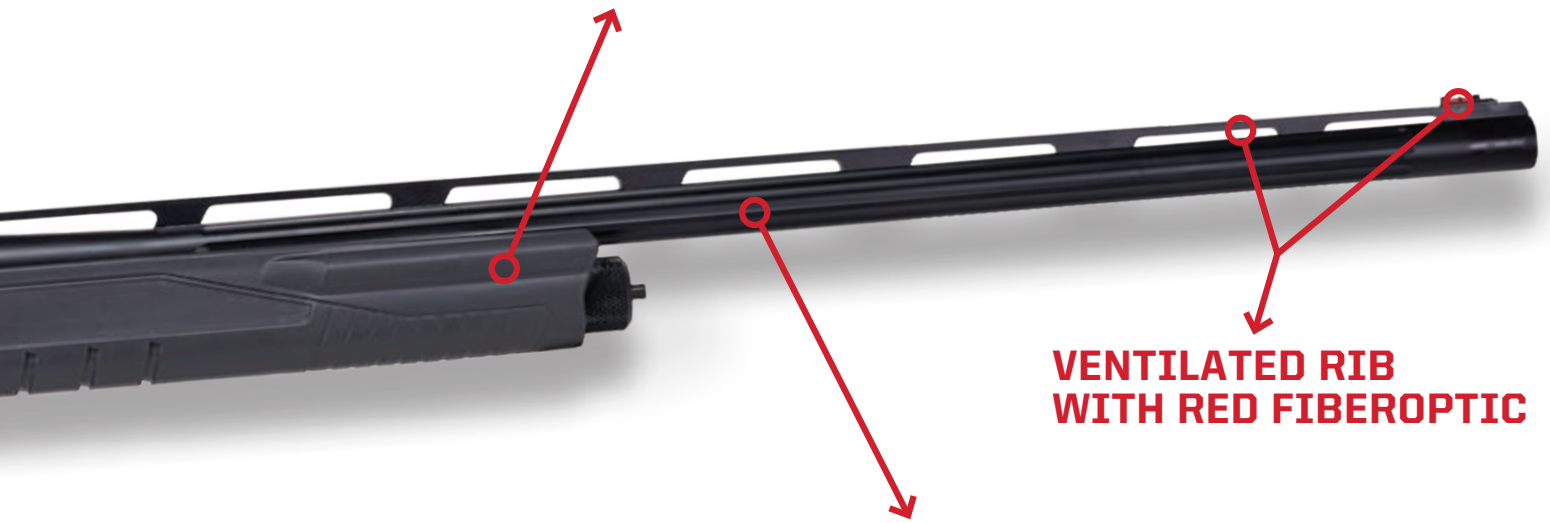

D.R.I.V.[™]

WHITE ARROW - Projectile exiting the firearm.
RED ARROW - Gas needed to cycle bolt carrier.
BLUE ARROW - Excess gas emitted.

D.R.I.V. GAS SYSTEM – DUAL REGULATING INLINE VALVE GAS SYSTEM

The first semi-automatic gas operation shotgun manufactured by Savage Arms. The patented self-regulating gas system allows high power and low power loads to cycle with the same consistency and reliability. Savage's dual-valve gas system is designed to emit excess gas, thereby maintaining optimal bolt carrier velocity across various loads. Reliable operation from 3" Magnums down to low recoil 2 3/4" cartridges.

**VENTILATED RIB
WITH RED FIBEROPTIC**

ONE-PIECE LIGHTWEIGHT BOLT CARRIER

The action bar assembly, including the pusher sleeve, is laser welded to the carrier for increased strength and ease of assembly and disassembly. These components are then chrome plated for enhanced functionality and ease of cleaning.

MELONITE FINISH

Provides excellent corrosion-resistance and surface hardness.

Full-length fluting on the barrel provides 9% weight reduction, improves balance, and swing.

Some Savage customers order non-cataloged items to their own specifications. In certain cases, these specifications may exclude the AccuTrigger.

SPECIFICATIONS SUBJECT TO CHANGE WITHOUT NOTICE.

RENEGAUGE SERIES

The American made Savage Renegaugue will change the way you think about semi-automatic shotguns. The Renegaugue can handle the hottest high-brass and the mildest low-recoil shells with the same dependability. The patented D.R.I.V. (Dual Regulating Inline Valve) gas system ensures excess gas vents before it drives the bolt, resulting in consistent ejection, less felt recoil, and a lightning fast cyclic rate for dependably fast split times. The Renegaugue has been designed to fit almost any shooter. Everything from length-of-pull to comb height and drop at the heel can be adjusted to fit.

PERFORMANCE

SAVAGE

1. ACCUFIT™

We all know proper fit of a rifle is key to repeatable accuracy. The Savage AccuFit system allows for easy adjustment to length of pull and comb riser height. Five different comb risers allow you to set the perfect height for your size, optic height and shooting preference. Four stock inserts ensure the proper length of pull so the firearm truly fits you.

2. ACCUTRIGGER™

Savage's AccuTrigger™ is the standard by which all factory triggers are judged. The system is easily adjustable, offers a light, clean pull with no creep, and prevents the firearm from discharging if jarred or dropped. Shooters can set the trigger pull to their preferences without having to pay a gunsmith. The AccuTrigger cannot accidentally discharge during normal use. While the trigger is being pulled, the integrated AccuRelease is intentionally depressed, which unblocks the sear and allows the rifle to fire.

NOTE: AccuTrigger™ is shown red for emphasis. Actual color is silver. For more information, see video at: savagearms.com

3. FLOATING BOLT HEAD

Savage's floating bolt head adjusts itself for a perfect fit. By moving just a few thousandths of an inch, the head aligns with the bolt face, cartridge, and chamber.

INNOVATION

13

SAVAGE INNOVATION

4. ACCUSTOCK™ BEDDING

When a cartridge fires, harmonic waves travel the length of the barrel. This movement affects how the bullet travels. Repeatable accuracy requires a firmly bedded action. The Savage AccuStock embeds a rigid rail system in the stock throughout the fore-end. Rather than connecting the action to the stock with one or two screws, the AccuStock engages the action along its entire length.

5. HEADSPACE CONTROL

At Savage, we set headspace by carefully threading barrels into place with their matched actions and bolts. This hand-fit, zero-tolerance process results in a perfectly-matched set that is then locked in with a barrel locknut.

6. PRECISION BUTTON RIFLED BARRELS

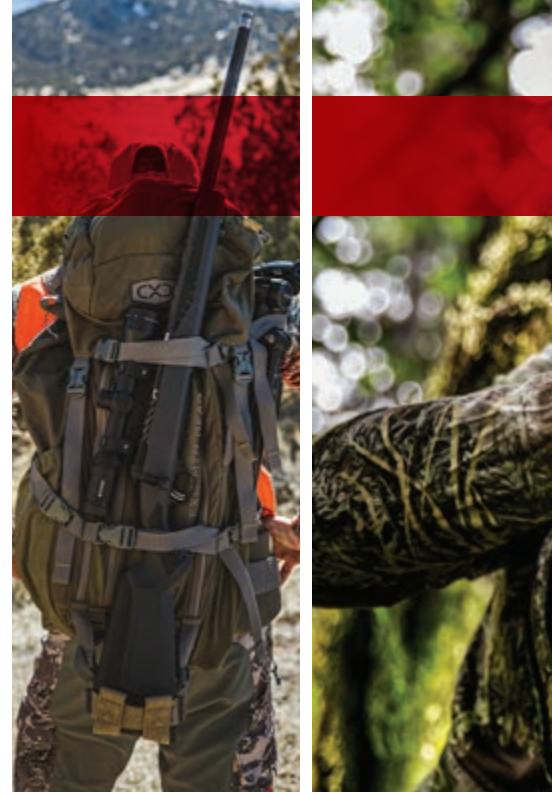

Accurate barrels require specialized machinery and experienced operators. Savage proudly employs both. Savage's centerfire barrels—from the Team Savage competitor's F Class rifle to the one going on your kid's first deer rifle – are checked and, if needed, hand straightened by the same skilled craftsman.

Some Savage customers order non-cataloged items to their own specifications. In certain cases, these specifications may exclude the AccuTrigger™.

SPECIFICATIONS SUBJECT TO CHANGE WITHOUT NOTICE.

110 SERIES

Rifles in this series have many different features for many different purposes. But every one of them is built on the legendary Model 110 action, the most accurate factory action ever. The 110 Series has a fresh look and a full complement of improvements. Select models feature the AccuFit™ system, which lets you lock in a custom fit for fast target acquisition and enhanced accuracy.

AXIS SERIES

The AXIS is often a hunter's first exposure to the dependability and accuracy for which Savage is renowned. These budget-friendly rifles are American made Savage tack drivers.

How do we make the AXIS in the USA and still save you money? Some companies would simply design a cheaper rifle. We designed a more efficient way to make a Savage.

LONG RANGE SERIES

Savage's Long-Range series is purpose built for performance and efficiency. Each rifle features the legendary Model 110 action, the most accurate factory action. We put everything we have into arming these modern rifles with advanced technologies to give shooters the ultimate edge. Yet the modular designs of the Long-Range rifles allow an operator to customize their firearms to mission-specific demands by selecting from a virtually infinite array of aftermarket accessories.

VARMINTER SERIES

The Savage Varmint Series is Hell on prairie dogs and coyotes. With our revolutionary AccuTrigger, button-rifling, and free-floating barrels, these rifles offer the pinpoint precision needed for long shots across varied terrain. Unlike most manufacturers, Savage builds a variety of stock configurations. You can even select different twist rates in certain calibers to help stabilize different bullet weights.

Long distances and fickle prairie winds won't save any varmints that linger in your crosshairs.

A

SERIES

Savage Arms™ continues its track record of innovation with the A-Series, the first high-performance semi-automatic rimfire system specifically designed for magnum cartridges. The A-Series delayed blow-back action provides safe, reliable operation with standard magnum loads. The hard chrome bolt, case-hardened receiver, 10-round rotary magazine and button-rifled barrel boost performance even further, while the user-adjustable AccuTrigger™ provides a crisp, light pull for the best possible accuracy.

B SERIES

Savage has added to its line of modern new firearms with the B17, B22 and B22 Magnum bolt-action Rimfire Rifles. The new line was conceived with the mindset that the better a gun fits you, the better you shoot it. To that end, the rifles offer a precision fit, thanks to an ergonomically designed stock, higher comb, top tang safety and target-style vertical pistol grip. Combined with a 10-round rotary magazine and user-adjustable AccuTrigger™, B Series Rifles are set for unbeatable accuracy.

MARK II SERIES

22 LR Rifles tend to run on the small side. But they are still a really big deal to us. That's why we have so many different configurations, from general-purpose plinkers to scoped packages, to every specialty configuration you can imagine. All have precision button-rifled barrels and most have an adjustable AccuTrigger. Why? Because to us, it's not "just a 22." It's a Savage.

MAGNUM SERIES

The 22 WMR cartridge featured in the Model 93 takes the old-fashioned rimfire round and gives it more punch. Savage Model 93 rifles give shooters a wide variety of 22 WMR configurations with the extras that have made Savage rimfires legendary.

With button rifled barrels and adjustable AccuTriggers, the Model 93s allow everyone from backwoods plinkers to target shooters to deliver the 22 WMR's punch with Savage Accuracy.

SINGLE-SHOT RIMFIRE SERIES

The best way to learn to shoot well is one shot at a time. Single-Shot Rimfire Rifles are perfect for new shooters all the way up to those who want to perfect the art. That's why our selection of single-shots are not toys. They have serious big-gun features like an adjustable AccuTrigger™, button-rifled barrels and even adjustable peep sights in some models. Sure, you've only got one shot, but with a Savage, one shot is all you need.

MSR SERIES

Savage Arms' next-generation semi-autos build on the legendary performance of the venerable AR platform. We call them Modern Savage Rifles.

The MSR family includes hard-hitting MSR 10s—lightweight, high-powered big game rifles for long-range domination. The lineup's MSR 15 models are what mil-spec M4 clones want to be when they grow up. These MSRs offer enhanced features, expanded caliber choices and updated designs. What most see as upgrades are standard features of the Modern Savage Rifle line.

MODEL

42

Way more than a novelty, the Model 42 Takedown shotgun-rifle combo is the ultimate survival, truck, camping and more gun! It breaks down with the simple push of one button and includes a Bug Out Bag so you can easily transport it anywhere.

The Model 42 Takedown is an easy-to-use break-open combo gun that fires rimfire rounds from the top barrel and .410 bore shotgun shells from the bottom. The compact model's length-of-pull is short enough and its recoil is light enough that it makes a perfect starter gun for young shooters.

MODEL 42 TAKEDOWN

Black Synthetic Stock // Blued Satin Finish // Shotgun-Rifle Combo // Open Sights
Length of Pull = 13.5" / Compact Length of Pull = 12.5"

STEVENS SHOTGUNS

Our Stevens brand of firearms is, without a doubt, the definition of value. Stevens Shotguns are imported from overseas partners who work closely with Savage to provide great quality at affordable prices. The current selection offers pump shotguns in both field and security models. Looking for an over/under configuration? We have that too.

So, whether you're looking for a kid's first firearm or a way to affordably add a different platform to your collection, Stevens has you covered.
