## TERMS & CONDITIONS

Case Packs: Battenfeld Technologies Inc.® ("Battenfeld") uses a "case pack" system for our finished goods. Our case pack quantities help us and our customers with shipping and receiving efficiencies. We will only deliver case packaged items in their case pack quantities - orders for quantities outside of case pack quantities can no longer be accepted. Our price lists have been updated to note quantity changes.

FREIGHT CLAIMS: Ownership passes to customer when carrier accepts and signs for shipment. Damage or shortages must be reported to carrier and claims must be filed through carrier.

SHIPPING: Battenfeld Reserves the right to use its designated carriers on all shipments.

DROP SHIPPING: Battenfeld will drop ship to your customer at your request. The minimum for each order at one time to one location is $2,000.

BACKORDERS: Backorders ship once they are available, unless purchase orders state otherwise. Battenfeld pays freight on backorders originating from qualified invoices.

SHORTAGES: All shortages must be reported to Battenfeld within 10 days of receipt.

RETURNS AND WARRANTIES: All returns require a return authorization number from Battenfeld. All Battenfeld accessories products (excluding Thompson/Center™ Original Equipment Manufacturer barrels; bolts and bolt handles; stocks, pistol grips and forends; magazines; and breech plugs) are warranted to be free of defects in materials and workmanship for a period of one (1) year from the date of original purchase.  Thompson/Center™ Original Equipment Manufacturer accessory barrels; bolts and bolt handles; stocks, pistol grips and forends; magazines; and breech plugs available from Battenfeld are warranted to be free of defects in materials and workmanship effective from the date of purchase for the lifetime of the original retail purchaser.  Any such defects for which Battenfeld receives written notice by the original retail purchaser will be remedied within a reasonable time after such notification and delivery of the covered products as provided herein.  Battenfeld will, at its option, repair or replace without charge, except for transportation costs, covered products that are defective in either materials or workmanship that have been used and maintained in accordance with the provided instructions.  Warranty claims (in writing) and the product or part thereof concerned should be delivered, postage prepaid, to Battenfeld at the address above.  In addition, a copy of the bill of sale indicating date of purchase must be included.  Please include your physical address, phone number and email address.  Battenfeld will not be responsible for defects or malfunctions resulting from careless handling, unauthorized adjustments or modifications, defective or improper ammunition and/or propellant, corrosion, neglect, abuse, ordinary wear and tear, or unreasonable use, commercial use, criminal misuse, negligence, or use under the influence of drugs or alcohol.  UNDER NO CIRCUMSTANCES SHALL BATTENFELD BE RESPONSIBLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES WITH RESPECT TO ECONOMIC LOSS, INJURY, DEATH OR PROPERTY DAMAGE, WHETHER AS A RESULT OF BREACH OF THE ABOVE WARRANTIES, NEGLIGENCE OR OTHERWISE.  Some states do not allow the exclusion or limitation of implied warranties and/or incidental or consequential damages, so the above limitations or exclusions may not apply to you.  These warranties gives you specific legal rights, and you may also have other rights which vary from state to state.

**FORCED AIR CONVECTION DRYING SYSTEM**

The Frankford Arsenal® Platinum Series Brass Dryer is specifically designed with vented trays, inner and outer layered air flow channels and a large 500watt Heating System to reduce drying time and maximize efficiency. Forced air convection ensures that the brass gets the maximum amount of airflow available. Air is heated to 160° F then blown through the channels and circulated throughout the trays before being exhausted out the bottom of the dryer.

# LOCKDOWN®

**Humidity control is an essential factor in storing and protecting firearms.** Maintaining consistent humidity and temperature around firearms is very important. High humidity levels and temperature fluctuation can lead to condensation and corrosion; extremely low humidity levels can potentially pull too much moisture from wood stocks causing cracks. 50% relative humidity and 70°F is considered ideal storage conditions for firearms.
